

SECTION 1: IDENTIFICATION OF THE SUBSTANCE AND SUPPLIER

Product name:	Cypercure
Product code:	A005284
Recommended use:	For the control of lice and keds on sheep and lice on goats.
Company details:	Boehringer Ingelheim Animal Health New Zealand Limited
Address:	Level 3, Boehringer Ingelheim Building 2 Osterley Way Manukau City Auckland 2104 New Zealand
Telephone number:	Phone: +64 9 263 1400
Emergency telephone number:	Boehringer Ingelheim Freephone: 0800 800 822 National Poisons Centre : 0800 764 766 (0800 POISON) Fire Service, Ambulance : Dial 111
Date of issue:	28 April 2006
Date of review:	4 February 2020

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical characterization: Liquid

Product components:

Name	CAS	Proportion
Cypermethrin	52315-07-8	25 g/L
Ethanol, 2-(2-butoxyethoxy)-	112-34-5	450 g/L
Other		to 1 L

SECTION 3: HAZARDS IDENTIFICATION

Hazard classifications: 3.1D, 6.1E, 6.3B, 6.4A, 6.5B, 6.8B, 6.9B, 9.1A, 9.4A

Priority and secondary identifiers:
 WARNING KEEP OUT OF REACH OF CHILDREN
 WARNING Dangerous to the environment
 WARNING Combustible liquid

Risk and safety phrases:
 3.1D Combustible liquid. Do not use or store near heat or open flame.
 6.1E May be harmful if swallowed or inhaled. Handle with care.
 6.3B May cause mild skin irritation. Avoid skin contact.
 6.4A May cause eye irritation. Avoid contact with eyes.
 6.5B Repeated exposure may cause skin allergy. Avoid skin contact.
 6.8B Cypermethrin possibly may affect development and/or reproduction. Handle with care.
 6.9B Cypermethrin possibly may affect the gastrointestinal tract. 2-(2-butoxyethoxy) ethanol possibly may affect the kidney and liver. Handle with care.
 9.1A Very toxic to aquatic organisms. Avoid contamination of any water supply with product or empty container.
 9.4A Very toxic to terrestrial invertebrates. Avoid release to the environment.

SAFETY DATA SHEET

Product Name: Cypercure

Reviewed on: 4 Feb 2020

SECTION 4: FIRST AID MEASURES

Necessary first aid measures:	For advice contact the National Poisons Centre on 0800 POISON (0800 764 766), or a doctor immediately. <u>Ingestion:</u> If swallowed, seek medical attention. Do NOT induce vomiting. <u>Eyes:</u> If splashed in eyes, wash out immediately with water. <u>Skin:</u> If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water. <u>Inhalation:</u> Remove to fresh air.
Workplace facilities:	No special facilities required.
Required instructions:	Observe good work practices and avoid skin and eye contact. Wash hands and exposed skin before meals and after use. Do not eat, drink or smoke while using. Launder protective clothing separately from other clothing, and before each reuse.
Notes for medical personnel:	Apply symptomatic therapy. Note the nature of the product.

SECTION 5: FIRE FIGHTING MEASURES

Type of hazard:	Combustible liquid
Fire hazard properties:	Combustible [estimated flashpoint is 60-93 °C]. Hazardous fumes when heated to decomposition.
Regulatory requirements:	Not applicable
Extinguishing media and methods:	Extinguish using water spray or chemical foam. Do not allow fire water to enter drains. 2/500 L fire extinguishers required.
Hazchem code:	2X
Recommended protective clothing:	When fighting a major fire wear full protective clothing including breathing apparatus.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Emergency procedures:	Wear suitable protective clothing. Restrict access to contaminated area. Contain the spill and prevent further dispersion. Retrieve intact containers from site. Place damaged containers into containment devices. Absorb spills with inert material and place in waste containers. Wash the area with water and absorb with further inert material. Collect spilled material and place in sealable containers for subsequent disposal. Prevent contamination of water courses or sewers. Dispose of waste safely.
------------------------------	---

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling:	Apply with well-maintained and calibrated equipment. Handle with care.
Regulatory requirements:	N/A
Handling practices:	N/A
Approved handlers:	Not required
Conditions for safe storage:	Store in original container, tightly closed, away from foodstuffs. Keep out of reach of children.
Store site requirements:	This substance is subject to a requirement for an emergency management plan, secondary containment and signage whenever it

SAFETY DATA SHEET

Packaging:

is held in quantities of 100 L or more. See Hazardous Substances (Emergency management) regulations 25 to 42.
Packaging Schedule 3 (UN Packing Group III) for quantities >5L (Hazardous Substances Packaging Regulations 2001).

SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION

Workplace exposure standards:

Ethanol, 2-(2-butoxyethoxy)-, NZ Not set
DFGMAK TWA 100 mg/m³
Dusts 10 mg/m³

Application in the workplace:

Prevent exposure by using engineering controls, personal protective equipment and work practices that prevent skin contact.

Exposure standards outside the workplace:

TELS and EELs are not set at this time.

Engineering controls:

Ensure that ventilation maintains dust levels below WES.

Personal protection:

Clothing should consist of overalls with long sleeves and impervious gloves to avoid skin contact. Wear eye protection (e.g. goggles or face shield).

References:

N/A

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Specify product data:

Formulation type: Solution
Appearance: Clear, red liquid
Specific gravity: ~ 1 g/mL
Boiling Point: >100 °C
Vapour Pressure: NA
Solubility in Water: [cypermethrin: 0.01 mg/L @ 20 °C; insoluble in water]

Required specifications:

N/A

Further specifications:

N/A

Specific advice:

N/A

SECTION 10: STABILITY AND REACTIVITY

Stability of the substance:

Stable under normal conditions of use and storage.

Conditions to avoid:

Avoid storage at high temperatures.
Avoid contact with ignition sources.

Material to avoid:

Incompatible materials:
Class 1 substances (explosives)
Class 2 substances (flammable gases)
Class 3.2 substances (flammable liquids)
Class 4 substances (flammable solids)
Class 5 substances (oxidising agents)

Hazardous decomposition products:

No hazardous decomposition products are expected, except when heated to decomposition.

Hazardous polymerization:

Components are not expected to form hazardous polymers.

Specific data:

N/A

SECTION 11: TOXICOLOGICAL INFORMATION

Data and interpretation:

May be harmful if swallowed or inhaled. May cause mild skin irritation. May cause eye irritation. Repeated exposure may cause skin allergy.

Danger of serious damage to health by prolonged exposure if swallowed or inhaled. Cypermethrin possibly may affect development and/or reproduction. Cypermethrin possibly may affect the gastrointestinal tract. 2-(2-butoxyethoxy) ethanol possibly may affect the kidney and liver.

Summaries data:

Cypermethrin

A widely used synthetic pyrethroid insecticide. Toxic by ingestion [LD₅₀ (oral, mouse) 138 mg/kg]. Ingestion of high doses induce nausea, vomiting, stomach pains, diarrhoea progressing to convulsions, unconsciousness and coma. Cypermethrin is a skin and eye irritant and may cause allergic skin reactions.

Fertility was significantly reduced in male rats ingesting cypermethrin at 13.15 and 18.93 mg animal/day. Sperm counts were decreased. A repeated oral dose study in rats identified a NOEL for systemic effects (nervous system and gastrointestinal effects) of 1 mg/kg/day.

Ethanol, 2-(2-butoxyethoxy)-

Low to moderate acute toxicity in laboratory species [LD₅₀ (oral) 2000-9600 mg/kg; LD₅₀ (dermal) 2700 mg/kg]. Repeated oral dose study in rats reported nephrotoxicity (oral LOAEL 51 mg/kg/d). Chronic inhalation study in rats reported hepatotoxicity (inhalation NOAEL 0.04 mg/L/d). Slightly irritating to skin and irritating to eyes.

SECTION 12: ENVIRONMENTAL INFORMATION

Potential environmental interactions:

Very toxic to aquatic organisms. Very toxic to terrestrial invertebrates.

Data organisation :

Cypermethrin: A widely used synthetic pyrethroid insecticide. Cypermethrin acts on the nervous system shows a species selective toxicity in the order fish > amphibians >> mammals > birds. Highly toxic to fish and aquatic invertebrates [LC₅₀ (96 hr) *Barbus gonionotus* 0.4 µg/L; LC₅₀ (48hr) *Daphnia magna* 0.36 µg/L]. Cypermethrin is highly toxic to terrestrial invertebrates including bees [LD₅₀ 0.023 µg/invertebrate]. Toxic to terrestrial vertebrates based on toxicity data from laboratory species [LD₅₀ (oral, mouse) 138 mg/kg]. Does not bioaccumulate or persist.

Environmental risk and safety phrases:

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Cypermethrin)

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal information :

Preferably dispose of the product by use. Otherwise dispose of product and packaging (crush or puncture empty container) at a managed landfill or other approved facility. Avoid contamination of any water source. Do NOT use container for any other purpose.

SECTION 14: TRANSPORT INFORMATION

Relevant information:	Dangerous Goods for transport. ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Cypermethrin) UN Number: 3082 Dangerous Goods Class: 9
Other requirements:	The maximum quantity per package of this substance allowed for carriage on public transport is 1 L. N/A

SECTION 15: REGULATORY INFORMATION

Regulatory status:	Registered pursuant to the ACVM Act 1997, No. A005284 See www.foodsafety.govt.nz for registration conditions Approved pursuant to the HSNO Act, Approval Code HSR001767 See www.epa.govt.nz for approval conditions SDS is required for quantities greater than or equal to 1 L
HSNO and ACVM controls:	Refer to Section 3
List exposure limits:	N/A

SECTION 16: OTHER INFORMATION

Additional information:	For product information visit the Boehringer Ingelheim website www.boehringer-ingelheim.co.nz While the information set forth is believed to be accurate as of the date hereof, BOEHRINGER INGELHEIM makes no warranty with respect hereto and disclaims all liability from reliance thereon.
