

## SECTION 1: IDENTIFICATION OF THE SUBSTANCE AND SUPPLIER

<b>Product name:</b>	<b>Eclipse Pour On</b>
<b>Product code:</b>	A009270
<b>Recommended use:</b>	For the control and treatment of internal parasites, including endectocide resistant strains, lungworm and lice in cattle.
<b>Company details:</b>	Boehringer Ingelheim Animal Health New Zealand Limited
<b>Address:</b>	Level 3, Boehringer Ingelheim Building 2 Osterley Way Manukau City Auckland 2104 New Zealand
<b>Telephone number:</b>	Phone: +64 9 263 1400
<b>Emergency telephone number:</b>	Boehringer Ingelheim Freephone: 0800 800 822 National Poisons Centre : 0800 764 766 (0800 POISON) Fire Service, Ambulance : Dial 111
<b>Date of issue:</b>	02 October 2007
<b>Date of review:</b>	4 February 2022

## SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

<b>Chemical characterization:</b>	Liquid	
<b>Product components:</b>		
<b>Name</b>	<b>CAS</b>	<b>Proportion</b>
Abamectin	71751-41-2	10 g/L
Levamisole	14769-73-4	200 g/L
N-methyl-2-pyrrolidinone	872-50-4	30-60%

## SECTION 3: HAZARDS IDENTIFICATION

<b>Hazard classifications:</b>	Acute oral toxicity (Category 4), Skin irritation (Category 2), Eye irritation (Category 2), Skin sensitisation (Category 1), Germ cell mutagenicity (Category 2), Reproductive toxicity (Category 1), Reproductive toxicity - Effects on or via lactation (Additional category), Specific target organ toxicity – single exposure (Category 1), Specific target organ toxicity – repeated exposure (Category 1), Hazardous to the aquatic environment acute (Category 1), Hazardous to the aquatic environment chronic (Category 1), Hazardous to the terrestrial environment
<b>Priority and secondary identifiers:</b>	DANGER WARNING
<b>Risk and safety phrases:</b>	<b>Hazard Statements</b>  <b>Health Hazard – Acute toxicity (Category 4)</b> Warning. Oral: Harmful if swallowed  <b>Health Hazard – Skin corrosion/irritation (Category 2)</b> Warning. Causes skin irritation  <b>Health Hazard – Serious eye damage/eye irritation (Category 2)</b> Warning. Causes eye irritation  <b>Health Hazard – Respiratory or skin sensitisation (Category 1)</b>

# SAFETY DATA SHEET

Product Name: Eclipse Pour On

Page 2 of 7  
Reviewed on: 4 February 2022

Warning. May cause an allergic skin reaction

## **Health Hazard – Germ cell mutagenicity (Category 2)**

Warning. Suspected of causing genetic defects

## **Health Hazard – Reproductive toxicity (Category 1)**

Danger. May damage fertility or the unborn child

## **Health Hazard – Reproductive toxicity – Effects on or via lactation (Additional category)**

May cause harm to breast-fed children

## **Health Hazard - Specific target organ toxicity – single exposure (Category 1)**

Danger. Causes damage to organs

## **Health Hazard - Specific target organ toxicity – repeated exposure (Category 1)**

Danger. Causes damage to organs through prolonged or repeated exposure

## **Environmental hazards - Hazardous to the aquatic environment acute (Category 1)**

Warning. Very toxic to aquatic life

## **Environmental hazards - Hazardous to the aquatic environment chronic (Category 1)**

Warning. Very toxic to aquatic life with long lasting effects

## **Environmental hazards – Hazardous to the terrestrial environment**

Hazardous to soil organisms

Hazardous to terrestrial vertebrates

Hazardous to terrestrial invertebrates

## **Precautionary statements**

### **Precautionary statement - General**

P101 If medical advice is needed, have product container or label at hand

P102 Keep out of reach of children

P103 Read carefully and follow all instructions

### **Precautionary statement – Prevention**

P201 Obtain special instructions before use

P202 Do not handle until all safety precautions have been read and understood

P260 Do not breathe dust/fume/gas/mist/vapours/spray

P261 Avoid breathing dust/fume/gas/mist/vapours/spray

P263 Avoid contact during pregnancy and while nursing

P264 Wash contaminated skin/eyes thoroughly after handling

P270 Do not eat, drink or smoke when using this product

P272 Contaminated clothing should not be allowed out of the workplace

P273 Avoid release to the environment

P280 Wear protective gloves/protective clothing/eye protection/face protection

### **Precautionary statement – Response**

P301 + P312 IF SWALLOWED: Call a POISON CENTRE/Doctor if you feel unwell

P302 + P352 IF ON SKIN: Wash with plenty of water

Reviewed on: 4 February 2022

P305 + P351 + P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing  
P308+P311 IF exposed or concerned: Call a POISON CENTRE/Doctor  
P308 + P313 IF exposed or concerned: Get medical advice/attention  
P314 Get medical advice/attention if you feel unwell  
P321 Specific treatment – see Section 4: First Aid Measures  
P330 Rinse mouth  
P332 + P313 If skin irritation occurs: Get medical advice/attention  
P333 + P313 If skin irritation or rash occurs: Get medical advice/attention  
P337 + P313 If eye irritation persists: Get medical advice/attention  
P362 + P364 Take off contaminated clothing and wash it before reuse  
P391 Collect spillage

## Precautionary statement – Storage

P405 Store locked up

## Precautionary statement – Disposal

P501 Dispose of contents/container according to the label description of one or more appropriate and achievable methods for the disposal of a substance in accordance with the Hazardous Substances (Disposal) Regulations 2001. This may also include any method of disposal that must be avoided. See Section 13 for disposal details.

## SECTION 4: FIRST AID MEASURES

### Necessary first aid measures:

For advice contact the National Poisons Centre on 0800 POISON (0800 764 766), or a doctor immediately.  
Ingestion: If swallowed, seek medical attention. Do NOT induce vomiting.  
Eyes: If splashed in eyes, wash out immediately with water.  
Skin: If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.

### Workplace facilities:

Inhalation: Remove to fresh air.

### Required instructions:

No special facilities required.  
Observe good work practices and avoid skin and eye contact. Wash hands and exposed skin before meals and after use. Do not eat or drink while using. Launder protective clothing separately from other clothing, and before each reuse.

### Notes for medical personnel:

Apply symptomatic therapy (no specific antidote). Note the nature of the product (possible mutagen, reproductive/developmental toxin, sensitiser and irritant).

## SECTION 5: FIRE FIGHTING MEASURES

### Type of hazard:

Non flammable, Non combustible, Non explosive

### Fire hazard properties:

Eclipse Pour-On is not classified as flammable, and will not support combustion. Hazardous fumes when heated to decomposition.

### Regulatory requirements:

Not applicable

### Extinguishing media and methods:

Treat the fire as for the other materials present. Do not allow water to enter drains.

### Hazchem code:

2X

### Recommended protective clothing:

When fighting a major fire wear full protective clothing including breathing apparatus.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

**Emergency procedures:**

Wear suitable protective clothing. Restrict access to contaminated area. Contain the spill and prevent further dispersion. Retrieve intact containers from site. Place damaged containers into containment devices. Absorb spills with inert material and place in waste containers. Wash the area with water and absorb with further inert material. Collect spilled material and place in sealable containers for subsequent disposal. Prevent contamination of water courses or sewers. Dispose of waste safely.

## SECTION 7: HANDLING AND STORAGE

**Precautions for safe handling:**

Apply with well-maintained and calibrated equipment. Handle with care

**Regulatory requirements:**

N/A

**Handling practices:**

N/A

**Approved handlers:**

Not required

**Conditions for safe storage:**

Store below 25 °C. Protect from light. Keep out of reach of children.

**Store site requirements:**

This substance is subject to a requirement for an emergency management plan, secondary containment and signage, whenever it is held in quantities of 100 L or more. See Hazardous Substances (Emergency management) regulations 25 to 42.

**Packaging:**

Packaging Schedule 3 (UN Packing Group III) for quantities >1 L (Hazardous Substances Packaging Regulations 2001).

## SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION

<b>Workplace exposure standards:</b>	1-methyl-2-pyrrolidinone, TWA 25 ppm, 103 mg/m <sup>3</sup> STEL 75 ppm, 309 mg/m <sup>3</sup> Dusts 10 mg/m <sup>3</sup>
<b>Application in the workplace:</b>	Prevent exposure by using engineering controls, personal protective equipment and work practices that prevent skin and eye contact.
<b>Exposure standards outside the workplace:</b>	TELs and EELs are not set at this time.
<b>Engineering controls:</b>	Use only in well ventilated areas.
<b>Personal protection:</b>	Clothing should consist of overalls with long sleeves, and impervious gloves. Wear eye protection (eg. glasses, goggles or face shield).
<b>References:</b>	N/A

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

<b>Specify product data:</b>	<u>Formulation type:</u> Solution <u>Appearance:</u> Clear solution <u>Specific gravity:</u> ~1.04 g/mL <u>Vapour Pressure:</u> NA <u>Solubility in Water:</u> Abamectin is insoluble in water
<b>Required specifications:</b>	List relevant physical and chemical data.
<b>Further specifications:</b>	Any additional data that are relevant to product.
<b>Specific advice:</b>	Cross references to other sections in SDS where appropriate.

## SECTION 10: STABILITY AND REACTIVITY

<b>Stability of the substance:</b>	Stable under normal conditions of use and storage.
<b>Conditions to avoid:</b>	No specific conditions to avoid
<b>Material to avoid:</b>	No specific materials to avoid.
<b>Hazardous decomposition products:</b>	No hazardous decomposition products are expected, except when heated to decomposition.
<b>Hazardous polymerization:</b>	Components are not expected to form hazardous polymers.
<b>Specific data:</b>	N/A

## SECTION 11: TOXICOLOGICAL INFORMATION

<b>Data and interpretation:</b>	May be harmful if swallowed. Can cause skin irritation. Can cause eye irritation. Repeated exposure may cause skin allergy. Levamisole may possibly cause damage to genetic material. 1-methyl-2-pyrrolidinone can affect development and/or reproduction. Abamectin may possibly have effects on or via lactation. Levamisole (blood and haematopoietic system) and abamectin (nervous system) may possibly cause organ damage.
<b>Summaries data:</b>	<u>Abamectin:</u> Abamectin is a highly effective insecticide and acaricide produced by the soil microbe <i>Streptomyces avermitilis</i> . It acts by stimulating the release of gamma-aminobutyric acid, an inhibitory neurotransmitter, causing paralysis of the parasite. It is highly toxic to invertebrates in the aquatic, soil and terrestrial environments. Aquatic organisms: Abamectin is highly toxic to fish and extremely toxic to aquatic invertebrates [LC <sub>50</sub> Rainbow trout is 3.6 ppb (96hrs); EC <sub>50</sub> <i>Daphnia magna</i> 0.34 ppb (48hrs)]. Persist: yes. Soil organisms: Dung beetle Terrestrial fate value 20-40. Abamectin is toxic to mammals [LD <sub>50</sub> (oral, rats) 8.7 mg/kg], but is less toxic to birds [LC <sub>50</sub> Bobwhite quail >2000

Reviewed on: 4 February 2022

mg/kg]. Abamectin is highly toxic to bees [LD<sub>50</sub> (oral) 0.0094 µg/bee; LD<sub>50</sub> (contact) 0.002 µg/bee].

Levamisole: Levamisole is a broad-spectrum anthelmintic with a long history of use in cattle and sheep. It has moderate to high acute toxicity [LD<sub>50</sub> (oral, rats & mice) = 200-500 mg/kg]. A potential mutagen [levamisole] induced chromosome gaps and breaks in human lymphocytes in vitro and in vivo and levamisole hydrochloride induced an increase in the mitotic index, numerical chromosomal changes (aneuploidy, polyploidy) and structural chromosomal changes]. Haemolytic anaemic was the main toxic effect demonstrated in repeated dose animal studies (LOAEL 1.25 mg/kg/day). In humans, levamisole has been associated with various non-specific effects (nausea, vomiting, rashes). Levamisole has induced leucopenia and agranulocytosis (idiosyncratic) at low doses.

1-methyl-2-pyrrolidinone: Low acute toxicity [LD<sub>50</sub> (oral, rabbit) 3500 mg/kg; LD<sub>50</sub> (dermal) >8000 mg/kg]. In reproductive studies in laboratory animals, repeated dose exposure from mating to weaning was associated with lower pup body weights, reduced fertility and fecundity, reduced litter sizes, reduced pup survival, resorptions and malformations, (NOEL 50 mg/kg/day). Irritant to skin and eyes.

## SECTION 12: ENVIRONMENTAL INFORMATION

### Potential environmental interactions:

Very toxic to aquatic organisms. Harmful to the soil environment. Harmful to terrestrial vertebrates. Very toxic to terrestrial invertebrates.

### Data organisation :

Abamectin: Abamectin is an acute oral toxin [LD<sub>50</sub> (oral) 8.7-12.8 mg/kg]. Ingestion of a single large dose of abamectin by humans (~100 mg/kg) was associated with coma, hypotension and respiratory failure. Clinical signs in repeated-dose laboratory animal studies included ataxia, tremor, mydriasis, emesis, pupil dilation and coma. High doses produced respiratory failure and deaths. The critical adverse effects in multigenerational reproductive studies were mortality and reduced weight gain of pups in early lactation (NOAEL 0.12 mg/kg/day).

### Levamisole:

Levamisole is potentially toxic to terrestrial vertebrates based on laboratory animal toxicity data [LD<sub>50</sub> (oral, rats & mice) = 200-500 mg/kg]. Not toxic to fish or honey bees. Levamisole does not bioaccumulate in biological systems. In soil, levamisole has a half-life of five to seventy five days depending on sunlight, soil type and climatic conditions. Levamisole binds strongly to soil particles and organic matter. It does not leach in soils and is readily degraded by hydrolysis and microbial action.

### Environmental risk and safety phrases:

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Abamectin 1%)

## SECTION 13: DISPOSAL CONSIDERATIONS

### Disposal information :

Preferably dispose of the product by use. Otherwise dispose of product and packaging at an approved landfill or other approved facility. Avoid contamination of any water source. Burn empty container in an appropriate incinerator, if circumstances such as wind direction permit. Otherwise crush or puncture and bury in a suitable landfill. Do NOT use container for any other purpose.
