

SECTION 1: IDENTIFICATION OF THE SUBSTANCE AND SUPPLIER

Product name:	EXODUS Long Acting Injection
Product code:	A010399
Recommended use:	For the control & treatment of internal parasites, nasal bot and itchmite in sheep.
Company details:	Boehringer Ingelheim Animal Health New Zealand Limited
Address:	Level 3, Boehringer Ingelheim Building 2 Osterley Way Manukau City Auckland 2104 New Zealand
Telephone number:	Phone: +64 9 263 1400
Emergency telephone number:	Boehringer Ingelheim Freephone: 0800 800 822 National Poisons Centre : 0800 764 766 (0800 POISON) Fire Service, Ambulance : Dial 111
Date of issue:	December 2009
Date of review:	4 February 2020

SECTION 2: COMPOSITION/INFORMATION ON INGREDIENTS

Chemical characterization: Liquid

Product components:

<u>Chemical Name</u>	<u>CAS No.</u>	<u>Proportion</u>
Moxidectin	113507-06-5	20 g/L
Benzyl alcohol	100-51-6	70 g/L
Other		to 1 L

SECTION 3: HAZARDS IDENTIFICATION

Hazard classifications:	6.1D, 6.5B, 6.8B, 6.8C, 6.9B, 9.1A, 9.2B, 9.3C, 9.4B
Priority and secondary identifiers:	WARNING KEEP OUT OF REACH OF CHILDREN WARNING Dangerous to the environment
Risk and safety phrases:	May be harmful if swallowed. Wash hands and exposed skin before meals and after use. Repeated exposure may cause skin allergy. Avoid skin contact. Moxidectin may possibly affect development and/or reproduction and may possibly have effects on or via lactation. Moxidectin may possibly cause effects on the nervous system. Handle with care. Accidental selfinjection may cause neurotoxic, inflammatory or allergic response. Very toxic to aquatic organisms. Avoid contamination of any water supply with product or empty container. Toxic to the soil environment. Harmful to terrestrial vertebrates. Toxic to terrestrial invertebrates. Avoid release to the environment.

SECTION 4: FIRST AID MEASURES

Necessary first aid measures:	For advice, contact the National Poisons Centre on 0800 POISON (0800 764 766), or a doctor immediately. <u>Ingestion:</u> If swallowed, seek medical attention. Do NOT induce vomiting.
--------------------------------------	--

SAFETY DATA SHEET

Product Name: EXODUS Long Acting Injection

Page 2 of 5
Reviewed on: 4 February 2020

Workplace facilities:	<u>Eyes:</u> If splashed in eyes, wash out immediately with water.
Required instructions:	<u>Skin:</u> If skin or hair contact occurs, remove contaminated clothing and flush skin and hair with running water.
Notes for medical personnel:	<u>Inhalation:</u> Remove to fresh air. No special facilities required. Observe good work practices and avoid skin contact. Wash hands and exposed skin before meals and after use. Do not eat or drink while using. Launder protective clothing separately from other clothing, and before each reuse. Apply symptomatic therapy (no specific antidote). Note the nature of the product (possible irritant, reproductive/developmental toxin and sensitiser).

SECTION 5: FIRE FIGHTING MEASURES

Type of hazard:	Non flammable, Non combustible, Non explosive
Fire hazard properties:	The products is not classified as flammable, and will not support combustion. Hazardous fumes when heated to decomposition.
Regulatory requirements:	Not applicable
Extinguishing media and methods:	Treat the fire as for the other materials present. Do not allow water to enter drains.
Hazchem code:	2X
Recommended protective clothing:	When fighting a major fire wear full protective clothing including breathing apparatus.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Emergency procedures:	Wear suitable protective clothing. Restrict access to contaminated area. Contain the spill and prevent further dispersion. Retrieve intact containers from site. Place damaged containers into containment devices. Absorb spills with inert material and place in waste containers. Wash the area with water and absorb with further inert material. Collect spilled material and place in sealable containers for subsequent disposal. Avoid contamination of water courses or sewers. Dispose of waste safely.
------------------------------	---

SECTION 7: HANDLING AND STORAGE

Precautions for safe handling:	Apply with well-maintained and calibrated equipment. Handle with care.
Regulatory requirements:	N/A
Handling practices:	N/A
Approved handlers:	Not required
Conditions for safe storage:	Store below 30 °C. Protect from light. Keep out of reach of children.
Store site requirements:	This substance is subject to a requirement for an emergency management plan, containment and signage, whenever it is held in quantities of 100 L or more. See Hazardous Substances (Emergency Management) regulations 25 to 42.
Packaging:	Packaging Schedule 3 (UN Packing Group III) for quantities >1 L (Hazardous Substances Packaging Regulations 2001 & variations).

SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION

SAFETY DATA SHEET

Product Name: EXODUS Long Acting Injection

Page 3 of 5
Reviewed on: 4 February 2020

Workplace exposure standards:	Dusts 10 mg/m ³ ; and as specified for particular ingredients.
Application in the workplace:	Prevent exposure by using engineering controls, personal protective equipment and work practices that prevent skin contact.
Exposure standards outside the workplace:	TELs and EELs are not set at this time.
Engineering controls:	Ensure that ventilation maintains dust levels below WES.
Personal protection:	Clothing should consist of overalls with long sleeves and impervious gloves. Wear protective goggles.
References:	N/A

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

Specify product data:	<u>Formulation type:</u> Solution <u>Appearance:</u> Yellowish liquid <u>Specific gravity:</u> < 1 g/mL <u>pH:</u> NA <u>Vapour Pressure:</u> NA <u>Solubility in Water:</u> Active not soluble in water
Required specifications:	N/A
Further specifications:	N/A
Specific advice:	N/A

SECTION 10: STABILITY AND REACTIVITY

Stability of the substance:	Stable under normal conditions of use and storage.
Conditions to avoid:	No specific conditions to avoid.
Material to avoid:	No specific materials to avoid.
Hazardous decomposition products:	No hazardous products are expected, except when heated to decomposition.
Hazardous polymerization:	Components are not expected to form hazardous polymers.
Specific data:	N/A

SECTION 11: TOXICOLOGICAL INFORMATION

Data and interpretation:	May be harmful if swallowed. Repeated exposure may cause skin allergy. Moxidectin may possibly affect development and/or reproduction. Moxidectin may possibly have effects on or via lactation. Moxidectin may possibly cause effects on the nervous system. Handle with care. Accidental self-injection may cause neurotoxic, inflammatory or allergic response.
Summaries data:	<u>Moxidectin</u> Moxidectin is an acute oral toxin [LD50 (oral, mouse) 42 mg/kg]. It can cause mild and transitory skin and eye irritation. Human health effects are considered unlikely if the product is used according to label, high dose exposure may cause central nervous system effects. Clinical signs in repeated high dose laboratory animal studies included lacrimation, salivation, slight ataxia, tremor, languid appearance (NOAEL 0.3 mg/kg bw/d). The critical adverse effects in multigenerational high dose reproductive studies were mortality and reduced weight gain of pups in early lactation. <u>Benzenemethanol</u> An organic alcohol that is used as a preservative [LD50 (oral, rat) 1040 mg/kg; LD50 (dermal, rabbit) 2000 mg/kg]. It is a known skin sensitiser (contact dermatitis) and a moderate eye irritant.

SECTION 12: ENVIRONMENTAL INFORMATION

Potential environmental interactions:

Very toxic to aquatic organisms. Toxic to the soil environment. Harmful to terrestrial vertebrates. Toxic to terrestrial invertebrates.

Data organisation :

Moxidectin

Moxidectin is an effective insecticide and acaricide. It acts on the gammaaminobutyric acid as an inhibitory neurotransmitter, causing paralysis of the parasite. It is highly toxic to invertebrates in the aquatic, soil and terrestrial environments. Aquatic organisms: Moxidectin is highly toxic to fish and extremely toxic to aquatic invertebrates [LC50 Rainbow trout is 0.16 ppb (96hrs); EC50 *Daphnia magna* 30 ppt (48hrs)]. Possibly bioaccumulative. Soil organisms: Dung beetle. Moxidectin is toxic to mammals [LD50 (oral, mouse) 42 mg/kg], highly toxic to bees [LD50 (oral) 0.46 µg/bee; LD50 (contact) 0.025 µg/bee].

Benzenemethanol

An organic alcohol that is used as a preservative. Benzenemethanol is toxic to aquatic and soil organisms [LC50 *Lepomis macrochirus* 10 mg/mL (96hrs); EC50 *Daphnia magna* 55 mg/L (24hrs); EC50 microbial 50 mg/L] and is a potential terrestrial vertebrate toxin based on laboratory animal toxicity data [LD50 (oral, rabbit) 1050 mg/kg].

Environmental risk and safety phrases:

ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Moxidectin 2%)

SECTION 13: DISPOSAL CONSIDERATIONS

Disposal information :

Preferably dispose of the product by use. Otherwise dispose of product and packaging (crush or puncture empty container) at an approved landfill or other approved facility. Avoid contamination of any water source. Do NOT use container for any other purpose. Dispose of needles by placing them in a sharps container.

SECTION 14: TRANSPORT INFORMATION

Relevant information:

Dangerous Goods for transport.
ENVIRONMENTALLY HAZARDOUS SUBSTANCE, LIQUID, N.O.S. (Moxidectin)
UN Number: 3082
Dangerous Goods Class: 9

Other requirements:

The maximum quantity per package of this substance allowed for carriage on public transport is 1 L.

SECTION 15: REGULATORY INFORMATION

Regulatory status: Registered pursuant to the ACVM Act 1997, No. A010399
See www.foodsafety.govt.nz for registration conditions

Approved pursuant to the HSNO Act, HSR007722
See www.epa.govt.nz for approval conditions

SDS is required for quantities greater than or equal to 1 L

HSNO and ACVM controls:
List exposure limits:
